

PLUS RELIEF

Avini Plus Relief is believed to work by targeting some of the same receptors on nerve cells that are also recognized by nicotine. These receptors are found in nerves outside the central nervous system (brain and spinal cord) and they are also found on cells of the immune system. Specialized proteins in Plus Relief block acetylcholine, a major stimulating neurotransmitter in the nervous system and activator of the inflammatory pathways. As a result, the pain and inflammation pathways are temporarily shut off. In some clinical studies, Plus Relief pain relieving products could provide prolonged chronic muscle and joint relief.

CELL DEFENDER

Cell Defender has been clinically proven to help remove heavy metals, toxins and other substances from the body, support a healthy immune system and help balance pH levels in the body. Cell Defender's exclusive zeolite is like a tiny, negatively-charged cage that pulls in a variety of toxic substances in the body and forces their excretion. This includes heavy metals (mercury, lead, etc.), as well as volatile organic compounds (benzene, dioxin, etc.). This process results in a healthier environment throughout the body as a cleaner and healthier body fixes itself. Cell Defender is 100 percent natural and non-toxic, safe for long-term use.
