

THE AVINI *Advantage*™

JUNE 2024 EDITION

AVINI HEALTH®
ADVANCES IN NATURAL HEALING

**Message from
Neil Roth, CEO**

“Thank you for all you have done and are doing. Our Distributors are our most important asset, and we never forget that!”

So much has happened to our fantastic Avini since the Summit! We have broken our sales records and reached new levels of accomplishment! So, what is driving our business? Let's look:

1. Over 425 Distributors came bursting out of the Summit with belief and excitement. In June, we brought in about 550 new Distributors, and are just about to break the 10,000 Distributor level – many more people to get our products out to the country.
2. We came out with 2 new products, Plus CardioCare and Plus Mind and Vision. These new products continue to address our health needs and preventative health care requirements. Who do we know that doesn't talk about or know someone with vascular health, vision, or cognitive function issues? These products have dramatically expanded our brand.
3. In conjunction with the introduction of these new products, we have redone our Activation Packs, strengthening the \$499 Pack with 10% more products, and introducing the \$999 Activation Pack.
4. We have also added the two new products to the Avini Bundle and the Avini Plus Bundle, creating the Complete Health Avini Bundle (with a 15% discount) and the Complete Health Avini Plus Bundle (with a 20% discount).

To help us maintain the momentum, this summer, we are beginning the Avini Vision Tour! These “mini” one-day Summits will have you leaving with electricity and excitement! You will also understand the value of the full Summit, which will occur next March in Las Vegas at the Tuscany Hotel.

The first “mini” Summit is on June 22nd in Idaho Falls, ID. Are you planning to attend a “mini” Summit or arranging for others to see our amazing products? Rik, Doug, and I are looking forward to seeing you and helping you maintain your momentum on getting our fantastic products out to everyone!

Thank you for all you have done and are doing. Our Distributors are our most important asset, and we never forget that!

Taking on Heart Disease with Avini's Cardio Care

Rik J. Deitsch, MS Biochemistry
Chief Scientific Officer, Avini Health

Heart disease is the leading cause of mortality in the United States and throughout the world; responsible for almost a third of all deaths. It is also known as a 'silent killer' as most people don't have any clue that there is a problem until they suffer their first heart attack. While it is true that some people may be genetically predisposed to cardiac disease, most heart disease and cardiovascular risk can be reduced or even eliminated by good lifestyle choices. These include physical activity, a healthful diet, and supplementation proven to benefit cardiovascular health.

It can sometimes be frustrating when people are reviewing supplementation for a specific organ, system or health concern and cannot pinpoint the benefits to them. This is especially true when looking for a product to aid in "cardiovascular

health." The problem comes from the broad nature of the word "cardiovascular." Some products may benefit the heart muscle itself; while other compounds aid in the electrical nature of the heart in improving or stabilizing heart rate and rhythm. Additionally, some products may benefit the large blood vessels in reducing risk of blood vessel blockages or stiffening of the blood vessels (atherosclerosis and arteriosclerosis). Lastly, some products may help with surface circulation and improve blood flow to the capillaries and extremities; which includes the hands, feet, and even the sex organs. In creating a new product for Avini Health, we wanted to address ALL of the parts of the cardiovascular system.

Avini's Plus CardioCare provides nutrients to support the entire cardiovascular system: including nutrients to aid the heart muscle as an efficient pump; improving heart rate and rhythm, while supplying nutrition to improve circulation, stabilize blood pressure, and improve the structure and function of the blood vessels.

These include:

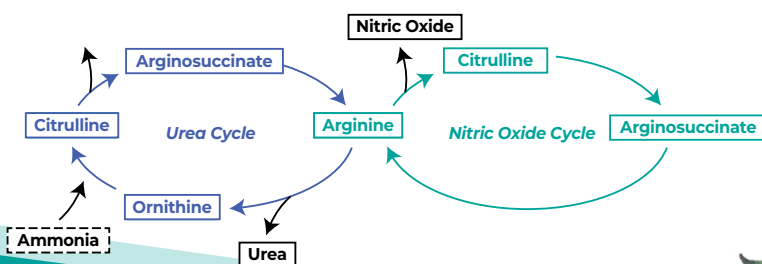

Co-enzyme Q10 (CoQ10, Ubiquinone): As part of the electron transport chain in the mitochondria of every cell, CoQ10 is critical in the production of energy (ATP). Since heart muscle never rests – your heart beats 24 hours a day – cardiac muscles have ten times the mitochondria than any other cells in the body. Studies demonstrate that it can help maintain healthy immune and cardiovascular systems, tissues and organs, and oral health (especially the gums). It also assists the body to maintain proper weight balance. Lastly, many prescription drugs for the treatment of heart disease may actually deplete CoQ10 from the body. So, anyone on cardiac medication should make sure that they are supplementing with CoQ10.

L-Arginine & L-Citrulline are amino acids and are the building blocks for nitric oxide production, a crucial substance that increases blood flow by relaxing smooth muscle and expanding blood vessels. Since these amino acids actually replenish each other in the Urea Cycle and the Nitric Oxide Cycle; research has shown that supplementing with a low-dose combination of both of these amino acids provides much higher benefits than extreme amounts of just L-Arginine.

Grape Seed Extract is rich in proanthocyanidins, another group of important flavonoids. Proanthocyanidins are highly regarded for their strong antioxidant properties and their role in supporting the body's capillary blood vessel system.

Ascorbyl Palmitate is a fat-soluble version of Vitamin C (ascorbic acid). While ascorbic acid is usually thought of as a water soluble vitamin that is excreted when over-supplemented, ascorbyl palmitate is ascorbic acid attached to palmitic acid (a long-chain fat) that can be stored over time and has been shown to protect blood vessels; supporting healthy circulation. While most people are familiar with Vitamin C's properties as an antioxidant, that is not its main function in the body. Ascorbic acid is a coenzyme and co-factor in the production of collagen. Collagen is a protein that is responsible for the structure of our skin, hair, nails, and even the walls of our blood vessels. When our diets lack Vitamin C, we can suffer from the deficiency disease known as scurvy; symptoms of which include swollen and bleeding gums along with cardiovascular failure. Ascorbyl palmitate can be stored over time and may even sequester into fatty deposits in the body. This includes the plaques in the arteries. Over time, this may reduce risk of blockages and may even improve the strength and flexibility of blood vessels.

Selenium: Selenium is the essential cofactor in over twenty enzymes, including the antioxidant enzyme glutathione peroxidase. Glutathione peroxidase levels decline with advancing age, and experts believe that adequate selenium nutrition can help maintain normal production of this important enzyme. Selenium is also necessary for healthy thyroid and cardiovascular function.

Hawthorne Berry Powder: Hawthorn (*Crataegus oxyacantha*) has a long history as a medicinal substance. The cardiovascular effects are believed to be the result of positive inotropic activity, ability to increase the integrity of the blood vessel wall and improve coronary blood flow. Clinical trials going back to the 1990s have shown that Hawthorn extracts are safe, well-tolerated and actually may improve function in patients with clinical heart disease. Hawthorn Berry is believed to improve heart rate and rhythm, as well as strengthen the heart muscle as an efficient pump.

L-Taurine: Taurine is a sulfur-containing amino acid concentrated in the muscles and central nervous system. Not only is taurine a potent antioxidant, but it has been shown to affect some of the risk factors for heart disease. Specifically, taurine seems to lower blood pressure and cholesterol levels. Taurine has been shown to aid in lowering both serum cholesterol and triglyceride levels, as well as helping to mitigate damage from high-fat diets. Taurine may also contribute toward cardiovascular health by reducing the tendency of platelets to stick together or aggregate.

Breviscapine Extract: A natural floral extract historically used to promote healthy circulation and mental focus. With over fifty published

studies, breviscapine is becoming the breakout ingredient from traditional Chinese medicine for cardiovascular and cognitive function products.

Beet Powder: A natural extract that promotes healthy blood pressure and circulation.

Detoxolite: Avini's micronized and Activated clinoptilolite Detoxolite™ that detoxifies while improving nutritional absorption and utilization.

In all, Avini Health's Cardio Care delivers on its promise to provide benefits for the entire cardiovascular system: providing nutrition to improve the heart muscle as an efficient pump, regulating heart rate and rhythm, improving the structure of the blood vessels, supporting healthy blood pressure, and improving circulation throughout the body.

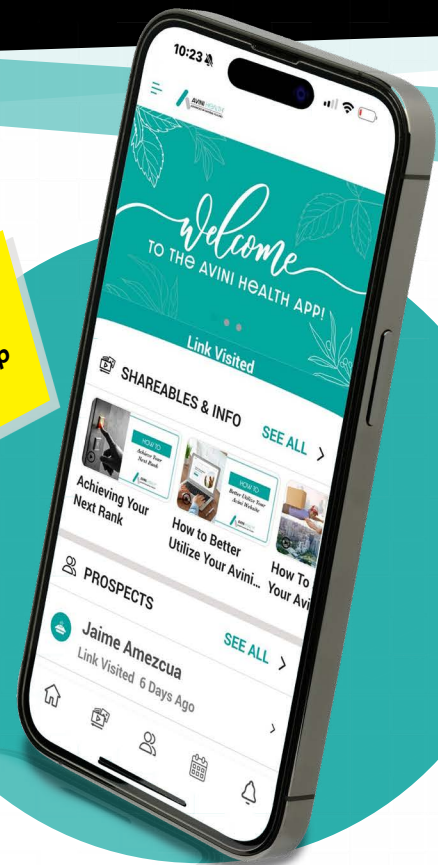

APP SECTION

What an exciting Summit, seeing everyone download the Avini Advantage App! We use the app because it allows us to easily share the products we love and share the importance of preventative care. Our Avini Advantage App allows you to share videos on each of the Products, share Testimonials, share the latest Activation Packs, and Scientific White Papers.

There's more...It's FREE! As a Distributor, you get access to all features of the app right from the get go. Our Leadership at Avini, felt it was important to support our Distributors and allow everyone to easily share information on products without the extra cost to the Distributor.

Download the Avini Advantage App at: avinihealth.com/app

Download the Avini Advantage App at: avinihealth.com/app and gain access to:

- Links to download the App
- Short and Easy Tutorials on how to use the App
- Android and iOS step-by-step Guide
- How to request help on the App
- Zoom Recordings on previous trainings
- FAQs on the most common App questions

You can't break the App!

We heard from some of our Distributors they are afraid to use the app because they might break it or mess something up. I have good news! You cannot break the app or cause any issues by clicking around and getting familiar with sending content through text messages or email. We encourage you to jump into the app, click every button, test sending videos, and just have fun exploring everything the app has to offer. Still not comfortable? Ask your upline for help or contact support@avinihealth.com.

What's next?

In the next few months, we will be adding exciting content to the App and bringing more interactive features. We will be adding a blast bi-weekly email blast with new content uploaded to the app and any additional tips and tricks on using the app. We invite you to keep checking back in on the App!

Thank you on behalf of Leadership for using and exploring our App.

Remember to Register for the Avini Health Vision Tour 2024

**REGISTER
TODAY!**

JUNE 22

IDAHO FALLS, ID

AUGUST 10

MINNEAPOLIS, MN

SEPTEMBER 14

PORTLAND, OR

OCTOBER 12

ARLINGTON, VA

NOVEMBER 9

BOCA RATON, FL

The Avini Health Vision Tour are regional events held throughout the country and offer an incredible opportunity for Distributors to learn more about our company and our revolutionary health and wellness products.

Attendees have the unique chance to engage and network with like-minded professionals, creating lifelong connections that can assist you on your health and wellness journey, and as a Distributor.

The events also offer an exclusive opportunity to meet and hear directly from the Avini Health leadership team, gaining valuable insights into the company's vision and the passion driving its success.

Visit avinievents.com to register for the next regional event.

DISTRIBUTOR *Success*

This is where we get to brag about YOU! Distributors are what make AVINI Health possible, and we want to celebrate each and every success with everyone.

David Johnson of Idaho **BLUE DIAMOND APPRENTICE**

"We are all hearing Avinians say: 'I'm the happiest I've ever been in my life!' since returning from our Las Vegas Convention. I believe that we are the most happy when we can help others be happy. Being anxiously engaged in a great cause with other good people and together doing something that really matters makes me really happy! Our CEO, Neil Roth often talks about the wonderful opportunity it is to be able to work hard in a high-growth environment. I concur! Helping a good organization grow is one of my very favorite things I've ever experienced. I love to GROW!"

We just attained Blue Diamond in Avini Health. We have really been 'around the block' as far as networking marketing. We've had a wonderful life doing this kind of business for 48 years now, and I'm happy to report that this is my all-time most favorite company of the eight different companies I've given my heart to. I'm the happiest I've ever been!

I look at Avini as a way to greatly magnify a person's good influence by sharing life-changing products and through building a team.

Together we can change the world!"

Toni Marie Abeyta of Colorado
DIAMOND DIRECTOR

*"I've never been more excited to share LIFE SAVING LIFE
CHANGING Avini Health than RIGHT NOW! Our Explosive Growth
is because YOU were Not afraid to share your HEART And the Business
Opportunity is REAL and no Gotchas, just like they promised!
I highly recommend growing fast, over sharing it slow! Someone needs you
to tell them! They may be dying for you to tell them! Avini Health is the Way
to Go! Love you."*

Distributors who were promoted in Emerald

Ray Shulund, WA

EMERALD APPRENTICE

"To me Avini is so much more than a product or a business, it's a way of life. You get to choose what part fits you best its the whole package with family supporting you. Caring, loving is what really drives me, and of course the miracles we all get to witness is like no other. Avini is truly one of a kind."

Steve Koochin, CA

EMERALD APPRENTICE

"The most important thing to me being in Avini is the fact that I can with confidence as a health practitioner give my recommendations to help people improve their health rapidly. There is no better feeling or reward than helping someone feel better. The Avini products produce that result one for one."

Anne Wehling, CO

EMERALD DIRECTOR

"I Love Avini Health and I Love my Avini Family! Since I started in Avini I have gone to every incredible Summit. While at all the many Summits I have been too I have learned from all the knowledgeable owners and leaders! This last summit with MJ Durkin, all the owners and leaders it lit a fire in me propelling me to Emerald Director. I met so many people in my Avini family in person and have done non stop ABC calls since summit! You are in the right place at the right time! Let's do this!!!!!!!!!!!!!!"

Jacob Wedge, WA

EMERALD EXECUTIVE

"The Avini Health opportunity has allowed us to move out of a little apartment and purchase a home for our family. If you are looking for better health, more money, and more free time, look no further than this company, which offers unique and innovative products and the most generous compensation plan in the industry."

Message from
Douglas Dickey, VP of Sales

Love the Products? Consider a Next Step.

Congratulations and welcome to all of our new Distributors and Retail Customers. What an amazing month Avini had in May. We had lots of new people joining, using our products, and sharing their profound results with others.

As VP of Sales, I am traveling around the country and doing Zooms and calls everyday. I get to hear about these wonderful experiences with our products from the people themselves. Some, I admit, are so amazing that it makes me emotional. It makes me think to myself: "What impact are we having on the world?" We really have something special with Rik's technology. Every product is a game changer. I have never seen a network marketing company with the culture of sharing like I am seeing with Avini and its amazing Distributors.

I want to encourage everyone, including our new Retail Customers, who love our unique products to consider making a "Next Step." Like...sharing your Avini experience with someone who needs to hear from you, tell another person about the purpose of Avini, sharing a testimonial, or maybe downloading the Avini Advantage App from the app store and sending a video or flier to someone. You don't have to commit to the business to share. Just point people to your website to look. Make an effort to let others know. Consider for a moment, the amazing story that grabs the attention of others that may come from your effort of saying something. We all need to interact more with others, and Avini can be the reason we do that.

Thank you to all of you on this crusade with Avini who make the world a better place. Have a wonderful June and remember to take a "Next Step."

Blessings,

Douglas Dickey

Douglas Dickey
VP of Sales

thank you
