JANUARY 2024 EDITION

AVINI HEALTH[®]
ADVANCES IN NATURAL HEALING

Message from
Neil Roth, CEO

“One of the key aspects of a happy year is financial security.”

HAPPY *New* YEAR!

To all our Avini Health Family – Happy and Healthy New Year!

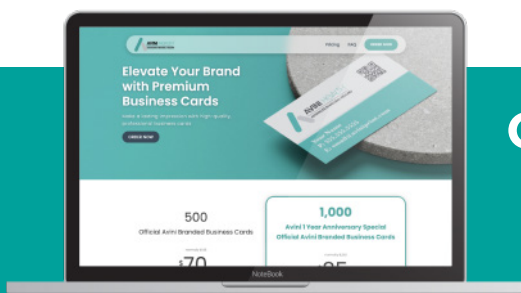

Wait a minute! What does that mean? How do you have a Happy and Healthy New year?

Guess what? Our Distributors are the ultimate purveyors of a happy and healthy new year. One of the key aspects of a happy year is financial security. There is nothing that creates stress and upset more than financial problems. Our business provides people the opportunity to create financial security whether as a Plan B or in some cases a Plan A! As a Distributor, we can't guarantee you a specific or any income, but completing any rank requirements on our Compensation Plan will guarantee you the money that rank earns – no guesswork needed. It is totally transparent and we guarantee you will get paid timely for your hard-earned commission.

And then there is healthy. We can all agree that personal health and the health of loved ones and friends directly affect our happiness. So, isn't helping them take our life enhancing, life changing products helping them in both departments, happy and healthy? Our science-based products help you create a healthy body that, as Rik says, “can fix itself!” In addition, the reduction of pain, inflammation and control of sugar levels and cholesterol can only add to a happy and healthy year. That's why we consistently talk about “Prioritizing Prevention.” **Happy and Healthy = Avini Health**

So, have a fantastic Avini Health New Year!

Neil Roth

Michael Polak III,
VP of IT and Compliance

Introducing Avini Health's VP of IT and Compliance, Michael Polak III. Michael is a highly valued corporate team member of Avini and works to provide the necessary tools and technology to help the distributor force share their products and opportunities with others.

Michael has been involved with MLM companies for more than a decade and understands the necessity of working alongside a volunteer army of distributors. He has also worked as the CEO of his own IT support company for many years, as well as with Neil Roth through several ventures. Michael lives in Las Vegas with his beautiful wife and three children. We welcome Michael to the Avini Health corporate team and appreciate all that he brings to the table. If you get the chance to say hi, he would love the outreach.

Michael@AviniHealth.com

The Corporate Team

Taking Care of Our Furry Friends

Rik J. Deitsch, MS Biochemistry
Chief Scientific Officer, Avini Health

There are currently over 78 million dogs and 85 million cats in the US. These companion animals are as susceptible as humans to ailments and issues that require detoxification and pain-relieving solutions.

Surprisingly, the total market for companion animals in the US reached an estimated \$124 billion in 2021. Of these expenditures, over \$13 billion was spent on medication for the animals. Additionally, a survey conducted by Virbac Pharmaceuticals values the annual US market for companion animal pain relievers at more than \$250 million. The upshot of all of this is amazing:

People spend more on their pets than they do on themselves!

So, in order to help our distributors and really help our furry friends, we've launched Cell Defender for Pets and Plus Relief for Pets.

Cell Defender for Pets

We all know the amazing benefits of Cell Defender, the micronized and activated clinoptilolite zeolite that we've branded as Detoxolite™. Just as people are exposed to heavy metals, volatile organic compounds and other toxins – our pets are exposed to these things, as well. In fact, some of their exposures can be worse than ours. Pets living outdoors are exposed to air filled with lead particles from exhaust fumes and herbicides and pesticides blown from nearby farms and yards as well as weather-treated wood. This last item is very important: wood used outdoors is treated with arsenic to reduce termite damage. As pets play with their chew toys and they roll around on the deck, the toys will absorb arsenic, which your pet can then ingest into their system. Therefore, if you have a wooden deck, do not allow your pets to play with chew toys on that deck.

Pets living indoors are exposed to fumes of cleaners and detergents, synthetic fibers in carpeting, colored ink in newsprint, perfumes and lotions we use on ourselves, flea collars, sprays and shampoos we use on them and pollutants we track into the house on our shoes, as well as tap water and food that may be full of heavy metals, hormones and antibiotics. Not to mention, if we take our pets out for a walk and they lick their paws, they may become exposed to everything they trotted through, including chemical-saturated runoff from yards and golf courses, as well as oil and gasoline residue.

Just as Cell Defender helps us systemically remove toxins and heavy metals, Cell Defender for Pets can do the same for our furry companions.

Plus Relief for Pets

It's hard to know when your pet is in pain. They can't just tell you that they're hurt or where they're hurt. You need to look for the signs of pain and discomfort. If they are touch sensitive, if they aren't eating or playing, if they shy away from you – these can all be warning signs.

There are very few things that we can use to treat pain in our pets. For dogs, your veterinarian would probably give you a narcotic, such as Tramadol or Demerol. These make your dog sleepy and can cause terrible side effects. The vet may also prescribe an NSAID (non-steroidal anti-inflammatory drug). These

also have limited efficacy and terrible side effects, mostly digestive issues like diarrhea. For cats, every pain medication can potentially cause kidney failure. As a result, the vet most likely won't prescribe your cat anything.

Just as Plus Relief helps us humans deal with pain and inflammation, Plus Relief for Pets can do the same for our companion animals. This product primarily treats moderate to severe chronic pain in our pets and is specifically indicated to treat pain from hip dysplasia, arthritis pain, joint pain and general chronic pain in companion animals. Specialized proteins derived from natural cobra venom modulate the action of acetylcholine, a major stimulating neurotransmitter in the nervous system and activator of the inflammatory pathways. As a result, the pain and inflammation pathways are temporarily shut off. This is an all natural, homeopathic formula that is long-lasting with clinically tested ingredients. It is safe and effective, non-narcotic and non-addictive, Acetaminophen and NSAID-free and safe for use in cats and dogs.

The clinical research on the peptides derived from cobra venom is quite impressive with more than 46 human clinical studies completed, as well as several studies specifically in dogs. In fact, oral safety in dogs dates back to 1874! The data from these extensive studies provide compelling clinical evidence that cobra venom provides an effective treatment for many types of pain without the side effects associated with NSAIDs, acetaminophen or opiates. Additionally, our research has been published in Dr. Steven Fox's textbook, Multimodal Management of Canine Osteoarthritis: Second Edition, where he quotes our research as an alternative to NSAIDs in the treatment of chronic arthritis in dogs. This book is currently being used at most veterinary schools in the United States.

Both Avini Cell Defender for Pets and Avini Plus Relief for Pets are provided as an oral paste that can be given directly to your pet on your finger, on their food or on their favorite treat. It is naturally flavored with a hypoallergenic chicken flavor that both cats and dogs love.

Let's take care of our furry friends as much as we take care of ourselves.

Let's use Cell Defender for Pets and Plus Relief for Pets to make sure our pets are toxin-free and pain-free.

Remember to Register for the National Summit in Las Vegas, NV

Are you ready to rock
and roll in Las Vegas?
We sure are!

DATE:

FRIDAY, APRIL 26TH-
SATURDAY, APRIL 27TH

PLACE:

HORSESHOE LAS VEGAS

We're thrilled to announce that the Avini Health National Summit is coming to the Horseshoe Las Vegas, on April 26th and April 27th and you won't want to miss it.

Join us for two days of education, motivation and inspiration to take your business and health to new heights. This year's Summit is going to be extra special as we've secured the Horseshoe Las Vegas! It's the perfect backdrop for our event, as we gather to connect, learn and grow together.

You'll have the opportunity to meet and network with Avini Health leaders and other professionals who share your passions and vision. Learn from the best in the industry, gain insights and build relationships that will last a lifetime.

Don't wait – get your tickets now for the Avini Health National Spring Summit at the Horseshoe Las Vegas. We can't wait to see you there. Get ready to rock and roll!

Scan QR code to register.

EMERALD APPRENTICE

"I have been in the health field for most of my life. I have known about Rik Deitsch's product for many years. Now that Rik has his own company Avinihealth, I am excited to be apart introducing these incredible products."

Distributors who were promoted in Ruby

Ray Shulund, WA | RUBY EXECUTIVE

"Boy where to start...

My wife says I'm the luckiest person she has ever known. I feel like anything is possible and that gives me the confidence to share Avini Health with everyone I meet.

I know it works, it has saved my life more than once. I figure if Avini can do that for me, it's bound to help others out there that need

it worse than me. When I leave the house in the morning, my wife will ask me where I'm going. I say, 'I have no idea, but someone is going to be very lucky to see me today.' I feel it is my responsibility to share the gift that I have been given with as many people as possible. I am so blessed to be in the Avini family."

Distributors who were promoted in Ruby (...continued)

Udana Power, CA | RUBY APPRENTICE

"I LOVE Avini Health! It out-performs any nutritional cleansing program I've ever used—and I've done just about all of them.

The Avini products have given me the mental clarity and physical strength to make my 2nd Act (actually my 3rd Act) the most exciting and productive of my life. That's important to me, because I lost a decade in the middle of

my life due to a health challenge. Avini makes me forget how long I've been on the planet! LOL.

Thank you, Rik. Thank you Neil and Doug. And all you amazing leaders who have built this remarkable company for us to join you in. You have made it possible for us all to get paid to be healthy... and live long and active lives!"

Steve Koochin, CA | RUBY APPRENTICE

"As a Holistic Health Practitioner, now 71 years old, I have not come across products like Avini's, that address all body concerns, at their roots. Handling problems at the cellular level via heavy metal detoxification is the new paradigm. I am so excited helping people with confidence, using Avini products!"

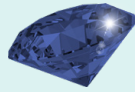

Guy Danowski, MI | RUBY APPRENTICE

I love Avini for two reasons. Avini Health has first helped me improve my overall health issues. Secondly, as a health care practitioner since 1983, it has helped me help my clients reach their goals and to renew their health concerns. While Avini is balancing the body through, detoxifying. I am able to help my

clients even more effectively and efficiently. For this I am very grateful. The company has the best leadership. It is motivated by unity and love. Many blessings to all that see the value of Avini Health in their life.

Message from
Douglas Dickey, VP of Sales

To our new distributors, Welcome to Avini!

In April, at our next Avini Summit in Las Vegas, we will be celebrating two full years of Avini Health in Business. What an amazing time this has been. With four more record-breaking months to go, we will see even more growth in our distributor force.

When Avini was first conceived during that now famous January 2022 meeting at Neil's home, we had already spent two plus years struggling to get products shipped to us, as well as to get paid by the two different MLMs that were selling Rik's Zeolite. From this awful experience, we created Avini Health out of the necessity to facilitate getting products to those who need them.

We chose MLM because it offers the ability for highly motivated distributors to share their firsthand experiences with others. It also allows them to, over a period of time, be able to share in the success of building an independent business. These two mechanisms are truly powerful and can change the world.

The two previous MLM company's owners did not share the same values as we do. They were only interested in themselves and the financial bottom line, not for the distributors and the health of the end users. Neil, Rik and I, and so many others, had experienced MLM PTSD from many bad experiences with incongruent companies. So, we chose to do the hardest thing: start a company ourselves. Neil came out of retirement, Rik gave up his free time and sleep and I placed my other businesses aside, so we could start and build a company that is free of debt and manage daily activities on a strict budget. With Neil's leadership, we run the company to be solvent and solid forever so distributors can focus on getting the word out and meeting people instead of worrying if a product is shipped on time, or distributors are paid on time or at all.

This is the dream of Avini Health. What we offer to those who join our crusade. We have the greatest life changing products for today's environmental toxins that are causing so much disease. We have our own top formulator and category creator, Biochemist Rik Deitsch. We supply you a free back office and replicated website for buying and sharing the products. We offer you a free, high-tech app for sharing the products and opportunity easily with others. We have a depository of thousands of videos, papers, studies and other items

available to distributors for free. We hold several regional meetings and two National Summits to help you build your downline teams and make a bigger difference in this world. We publish a monthly newsletter with shareable PDFs about our products. Our two-page compensation plan is simple and duplicatable. Even if you do not know what to do, the computer calculates everything for you. You have access to many back office tools that help you manage everything for optimum growth. All these things are done without the usual "gotchas" that are typical in this industry. We removed every "gotcha" from the compensation plan that seemed unfair and incongruent with our mission statement.

A new person can become a retail customer, or a wholesale Buyer/Distributor in our business. All product sales contribute to the volume of the organization with retail points being 1/2 the retail volume. The Distributor can make commissions by sharing Avini with those they know, resulting in a successful sale or enrollment. Even with no obligation to buy anything after their purchase of the One Time Activation Pack, a Wholesale Buyer/Distributor may choose to participate in the networking program and be paid on others' volume in their downline organization. No obligations, just opportunity with no time limit. The way it is meant to be. Distributors must qualify for each level each calendar month to rank up or level up within a rank. It's up to them and dependent on their own skill and work ethic in Avini. We have received a gift with Avini Health, and we owe it to ourselves and others to get out and share with others what can be a second chance on life. Avini is the future of healthcare. We are so grateful you are here. Let's get sharing.

Douglas Dickey
