## internal CBD BEAUTY MOLECULE

#### BENEFIT

In the LA DOPE Beauty Molecule, hyaluron and cannabidiol are combined for the first time to form a globally unique beauty synergy, which is based on LA DOPE's own unique anti-wrinkle active complex. The holistic approach is of the greatest importance in the development of our recipes. This is the only way that a large number of plant substances can develop their effect beyond the individual active ingredients and subsequently further increase their bioavailability. The super antioxidant hydroxytyrosol offers perfect cell protection, while cannabidiol ensures the best possible availability of the low and high molecular weight hyaluronic acid in the cells. The result is a radiantly beautiful and even complexion. Beauty that comes from within and radiates outwards ... dope your wrinkles from within.

For the best possible results and the maximum increase in the hyaluronic acid content, each 17.5 ml Beauty Shot contains at least 6.3 mg hydroxytyrosol for ideal protection against oxidative stress (a study by ESFA states that a daily intake of 5.3 mg hydroxytyrosol a perfect protection of the cells against oxidative stress) and each bottle contains an incredible 200 mg hyaluron and 1000 mg aqueous cannabidiol. For optimal results, these 200 mg hyaluronic acid are divided into 50% each in high-molecular and low-molecular hyaluronic acid. The result of ingestion is radiant, fresh, firm, rosy, more fine-pored and youthful skin that gives you with LA DOPE's own Beauty Plump Effect. Dope your wrinkles from within ... for beauty that comes from within and radiates outwards.

LA DOPE's own low and high molecular hyaluronic acid is obtained through bio-fermentation and dissolved in cannabidiol in a special process. Due to its low and high molecular structure, the hyaluronic acid can be metabolized most effectively, which is reflected in LA DOPE's own plump effect. Like all LA DOPE products, the LA DOPE Beauty Elixir is not based on water, but on the highly antioxidant cell elixir of the olive leaf.

500 ML : 16,91 FL.OZ.

#### APPLICATION

Shake well before use. Take 2 pipettes or 1 teaspoon straight or together with juices (e.g. with freshly squeezed orange juice) 2-3 times before meals. Up to 10 ml a day. Children from 2 years of age take half of the recommended daily dose for adults, up to 5 ml per day.

## N° 005 DOPE your immune power INTERNAL ELIXIR

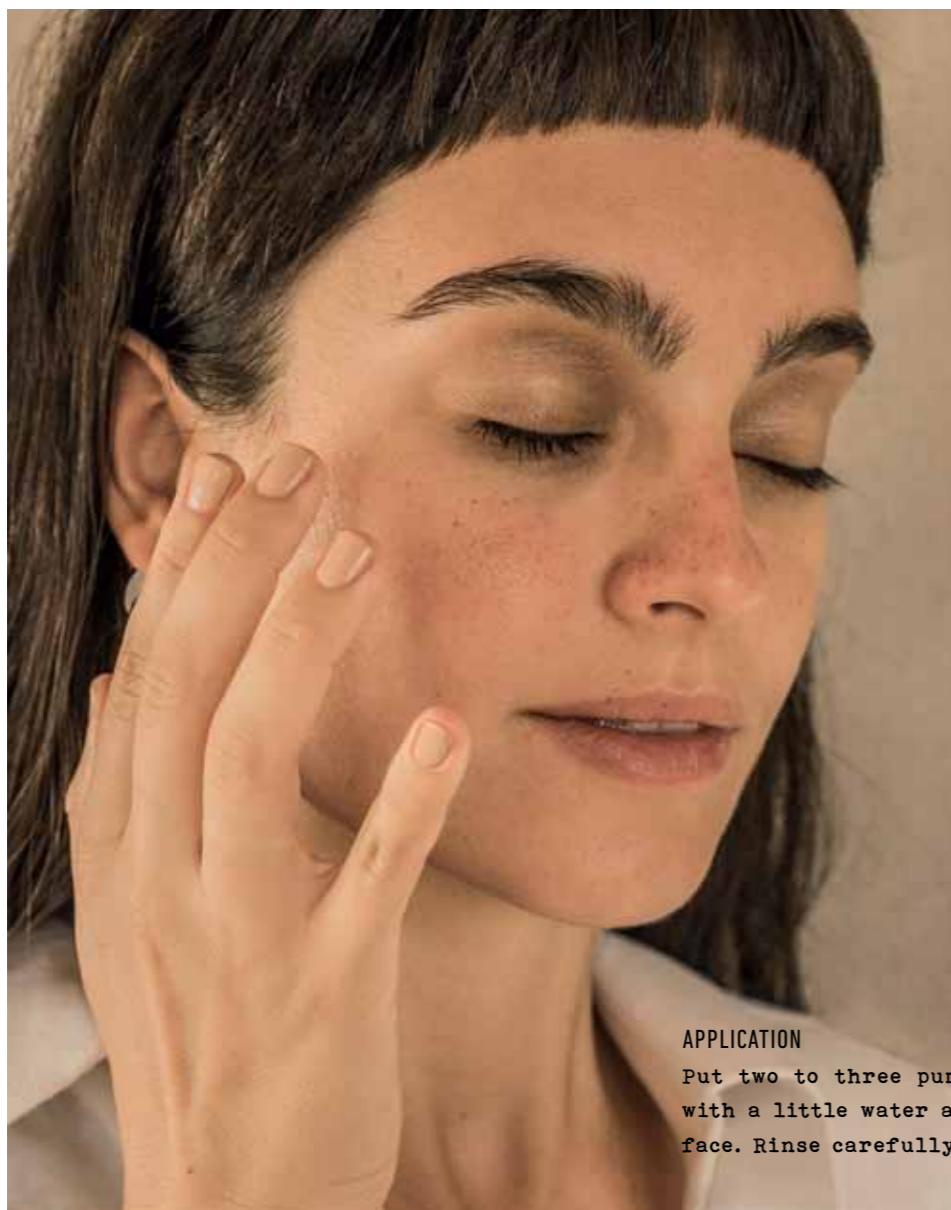

#### BENEFIT

This drinkable treatment pack combines hydroxytyrosol and cannabidiol - a powerful defense against many infectious viruses and harmful environmental influences.

The fresh hydroxytyrosol and cannabidiol act as a real protective shield, while at the same time preventing premature skin aging.

With the concentrated vitality of the olive tree in this bottle and the cannabidiol, you not only increase your well-being, you also experience harmonization between body and mind. The addition of the world's most vitamin C-rich fruit, the camu camu, creates a synergy of taste and effect.

100 ML : 3,4 FL.OZ.

#### APPLICATION

Put two to three pumps in your hand, lather up with a little water and massage gently onto your face. Rinse carefully.

## N° 009 DOPE your glow DEEP CLEANSER

#### BENEFIT

This deep cleansing gel cleanses the skin of the face in a particularly gentle but intensive way without removing moisture. The unique combination of cannabidiol, hydroxytyrosol and plant-based sugar surfactants, French lavender and vanilla cleanses the facial skin pore-deep and makes the complexion appear radiant, fine and even.

The super active ingredients cannabidiol work in synergy with hydroxytyrosol free radicals and pigmentation - for an even more beautiful and finer-pored complexion.

100 ML : 3,4 FL.OZ.

#### APPLICATION

Shake the bottle before use. Put a few drops on the back of the hand, pick up with the fingertips and dab on the cheeks, forehead, chin and décolleté. The ideal base under the LA DOPE Face Cream in the mornings and evenings.

**DOPE your glow**  
**FACE CREAM**

**BENEFIT**

This highly active anti-aging cream contains the olive tree polyphenol hydroxytyrosol and cannabidiol. These two natural anti-aging ingredients stimulate living cells profoundly and extend their lifespan.

The natural vital functions of the skin are brought back into balance, the elasticity of your skin is improved, and the visible signs of skin aging, such as expression lines, are significantly reduced.

The gently stimulating avocado oil, together with cannabidiol, helps to rebuild the skin on a cellular level, provides it with deeply penetrating moisture, and makes it look more youthful, smoother and more even.

60 ML : 2,0 FL.OZ.

## N° 007 lifting up EYE ELIXIR

---

### BENEFIT

This eye elixir is based on a triple hyaluronic acid, which combines the unique cannabidiol and hydroxytyrosol of the two oldest cultivated plants on earth and works in synergy with the jambu extract and panthenol. This exclusive "lifting up eye" complex promotes the natural activity of the cells and gives the area around the eyes a firmer and more radiant appearance.

The "lifting up eye" complex strengthens and smooths the fine skin around the eyes and is particularly suitable for demanding, sensitive, fine skin. This makes the area around the eyes look younger, tightened and timelessly beautiful.

---

### APPLICATION

Shake well before use. Apply a drop of the elixir and massage it gently around the eye area.

---

13 ML : 0,45 FL.OZ.

## N° 008 shining DOPE EYE CREAM

## STORY

Los Angeles, 2016. OLIVEDA founder Thomas Lommel first consciously came into contact with cannabidiol / CBD and the hemp plant. They and the olive tree are the two oldest cultivated plants on Earth.

In Los Angeles, CBD was already on everyone's lips and had triggered a mega-boom. So, it was almost impossible not to come into contact with it. After Lommel started in 2015 following his passion project to research the vibrational frequencies of the mountain olive trees with their human-balancing abilities, he was primarily interested in making the transforming vibrational frequencies of the cannabis plant audible. Four years and 28 days later, on November 9, 2019, he made the vibrational frequencies of cannabis ring out on the occasion of the first OLIVEDA blogger event in Los Angeles.

Up to this point, he had dealt intensively with the transforming energy of cannabidiol / cannabis - of course in connection with the cell elixir of the olive leaf, which he developed many years earlier in the legendary OLIVEDA tree house. These natural ingredients are great on their own, but together they create a symphony.

It is like bringing together what belongs together; united, the two oldest cultivated plants on earth enrich one another. We call their interaction synergy or  $1 + 1 = <3$ . In keeping with our philosophy: What is best for the inside must also be the best for the outside - our largest organ, the skin.

In October 2019, OLIVEDA International Inc. then took over a majority stake in LA DOPE Inc., based in Los Angeles, and since then, has developed almost 50 mutually enriching and holistic recipes.

True to the OLIVEDA tradition, we also start at LA DOPE with products for internal use. The foundation stone is laid by the 001 CBD Beauty Elixir, which for the first time in the world, combines the super beauty molecules cannabidiol and hyaluronic acid. Beauty that comes from within and radiates outwards - or as we say at LA DOPE: **Dope your wrinkles from within.**

Effect of cannabis frequencies based on experience reports:

Harmonization and activation of the vital forces

A positive feeling for life and body despite electro smog

Stress relief, relaxation and deep, restful sleep

Mental and spiritual balance, positive attitude towards life

Sensitization of energetic perception

Promotion of spiritual and intellectual development and creativity

# LA DOPE BEYOND BEAUTY

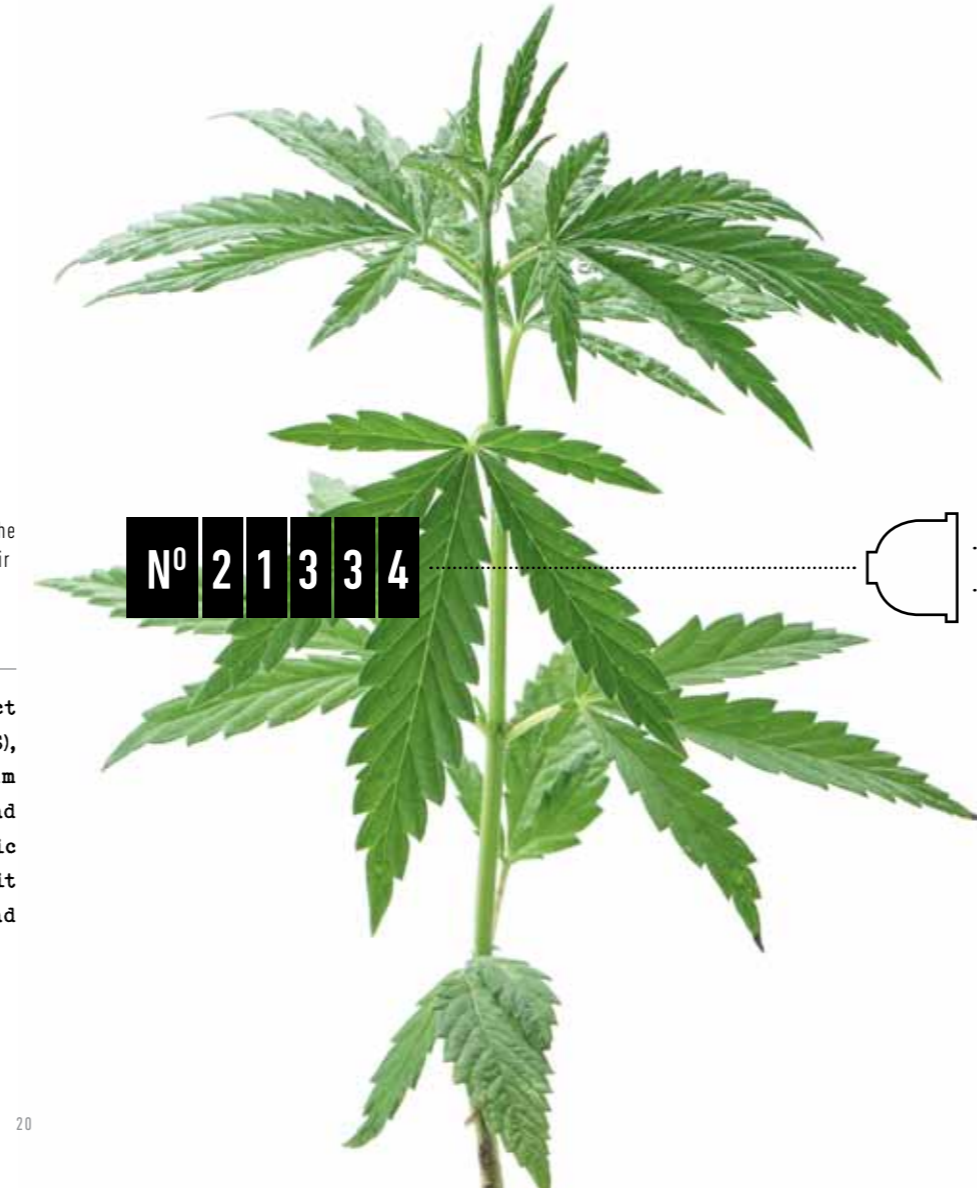

COMING SOON

The bioactive CBD wearable / wristband LA DOPE Beyond Beauty is connected in real time to the frequencies of our wild cannabis plants via a patented process, which can then be transmitted to the wearer of the wristband worldwide. Bioactive bracelet that connects, activates and balances the wearer 24/7 in real time with the cannabis / CBD frequencies, even in countries where cannabidiol has not yet been legalized.

LA DOPE Beyond Beauty supports the CBD Holistic Beauty Therapy and their coordinated and complementary LA DOPE products.

The plant's own cannabidiol has a positive effect on the body's own endocannabinoid system (ECS), which was discovered in 1992 by a research team at the national Institute of Mental Health and essentially regulates and balances all the basic functions of our body and skin. In addition, it can positively influence sleep disorders, mood and mood changes, and anxiety.
