

A0 Scan Technology

SOLEX

Frequencies

AO Scan™ Technology is based on the works of scientists from around the world, such as Nikola Tesla, Albert Einstein, Marie Curie, Raymond Rife, and many others. These advanced thinkers were united by their belief that everything at its most fundamental level is energy. Every cell of the body produces energy, frequency, vibration, and resonance. When the frequencies are in balance the quality of life is optimized.

What is AO Scan Technology?

- Unique educational tool that teaches us how the body is performing
- Communicates via bio-frequencies & electromagnetic signals
- Identifies areas out of balance, so lifestyle changes can be made
- Advanced technology that's simple & easy to use

AO Scan Begins

- 40 yrs ago Loran Swensen adopted a son with cerebral palsy. He traveled the world looking for ways to improve his quality of life.
- In China in 2008, Loran came across a digital body scan at a tradeshow. He acquired the rights to bring it to the US. Loran and his team created the first AO Scan™ in 2012. The first AO scanners were large and costly.
- In a stroke of brilliance, Loran developed AO Scan™ Technology in mobile form, making it accessible to everyone.

7 Major Features

1. Quick Scan
2. EZ Scan
3. Inner-Voice
4. Vitals
5. Body Systems
6. Comprehensive
7. S.E.F.I. (Subtle Energy Frequency Imprinter)

Quick Scan

- Uses a sound harmonizing technique that generates audio frequencies to balance the emotional state of the user
- Provides colors and musical tones to assist in creating that balance
- Includes 3-Minute Boosts, Energetic Auras, & scans for specific times of the day

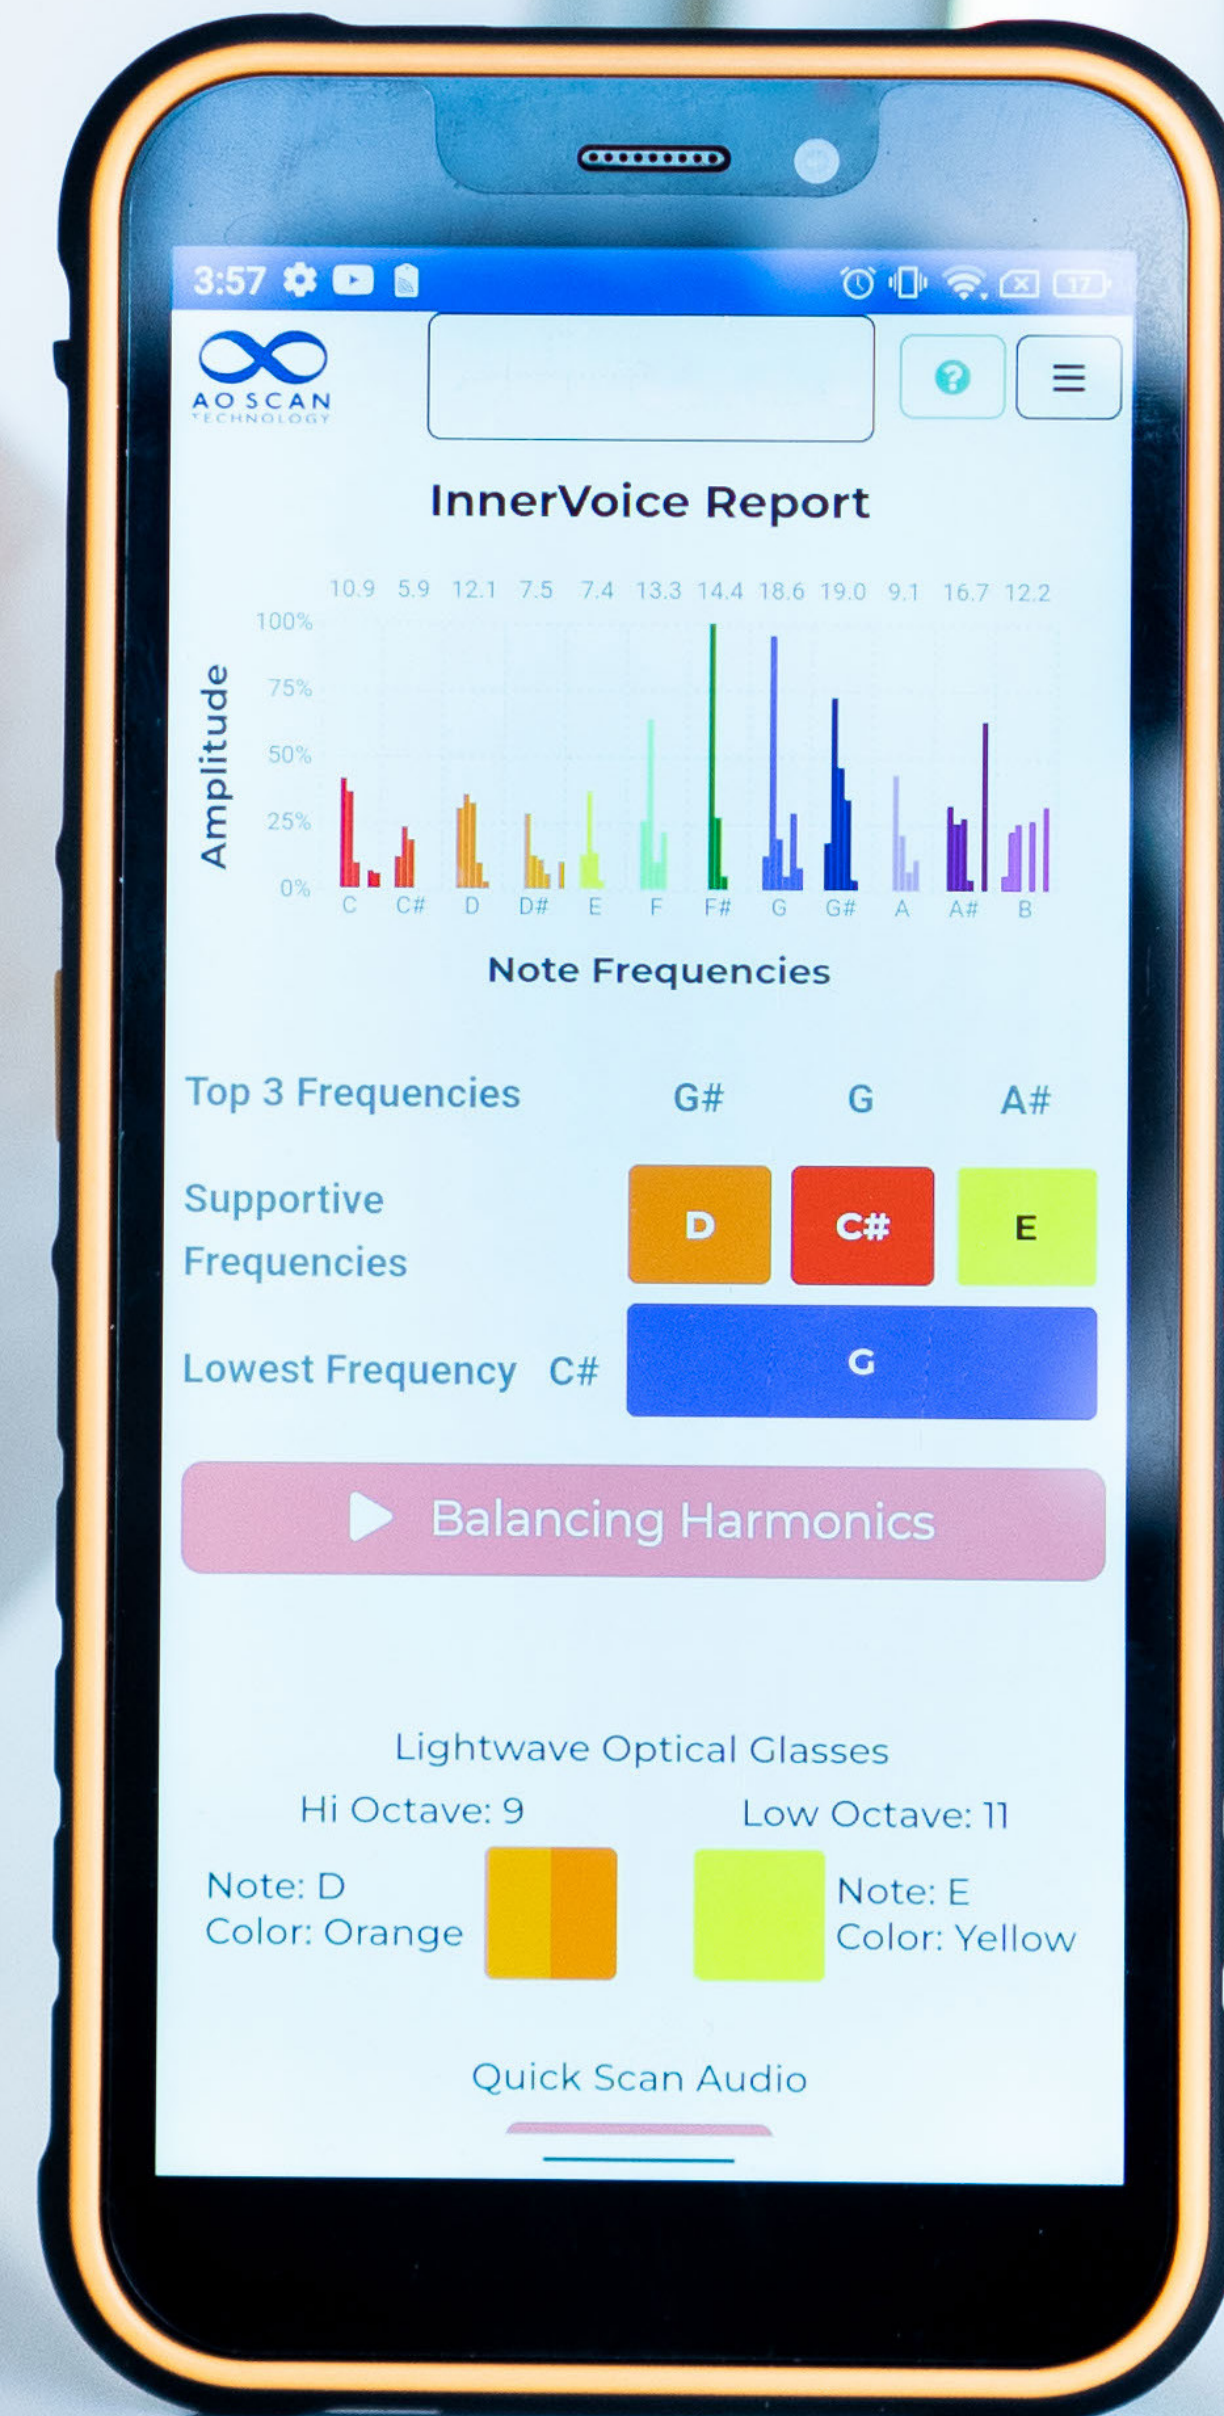

EZ Scan

- Most convenient and simplest way to perform Inner-Voice, Vitals Scan, Comprehensive Scan, and the associated optimizations, all under 6 minutes
- Optimization will identify frequencies out of range and will generate canceling frequencies that help organs and systems achieve a state of homeostasis (complete balance)

Inner-Voice

- Uses a sound harmonizing technique that generates balancing audio frequencies derived from the voice spectrum in humans to diminish frequencies that are in excess and supplement frequencies that are lacking
- Analyzes 12 note frequencies: C, C#, D, D#, E, F, F#, G, G#, A, A#, and B

Vitals

- Concise snapshot of the 550 Blueprint Frequencies in relationship to the frequencies being produced by the blood, organs, glands, and systems of the body
- Includes blood, chakra, gastrointestinal, meridian, nutritional, physical functionality, and toxicities reports

Body Systems

- Performs a thorough scan and optimization of hundreds of Blueprint Frequencies associated with 13 body systems
- Includes circulation, urinary, connective tissue, digestion, endocrine, lymphatic, musculoskeletal, nervous, respiratory, sensory nervous, integumentary, chromosomes, and human cell/mitochondria body systems

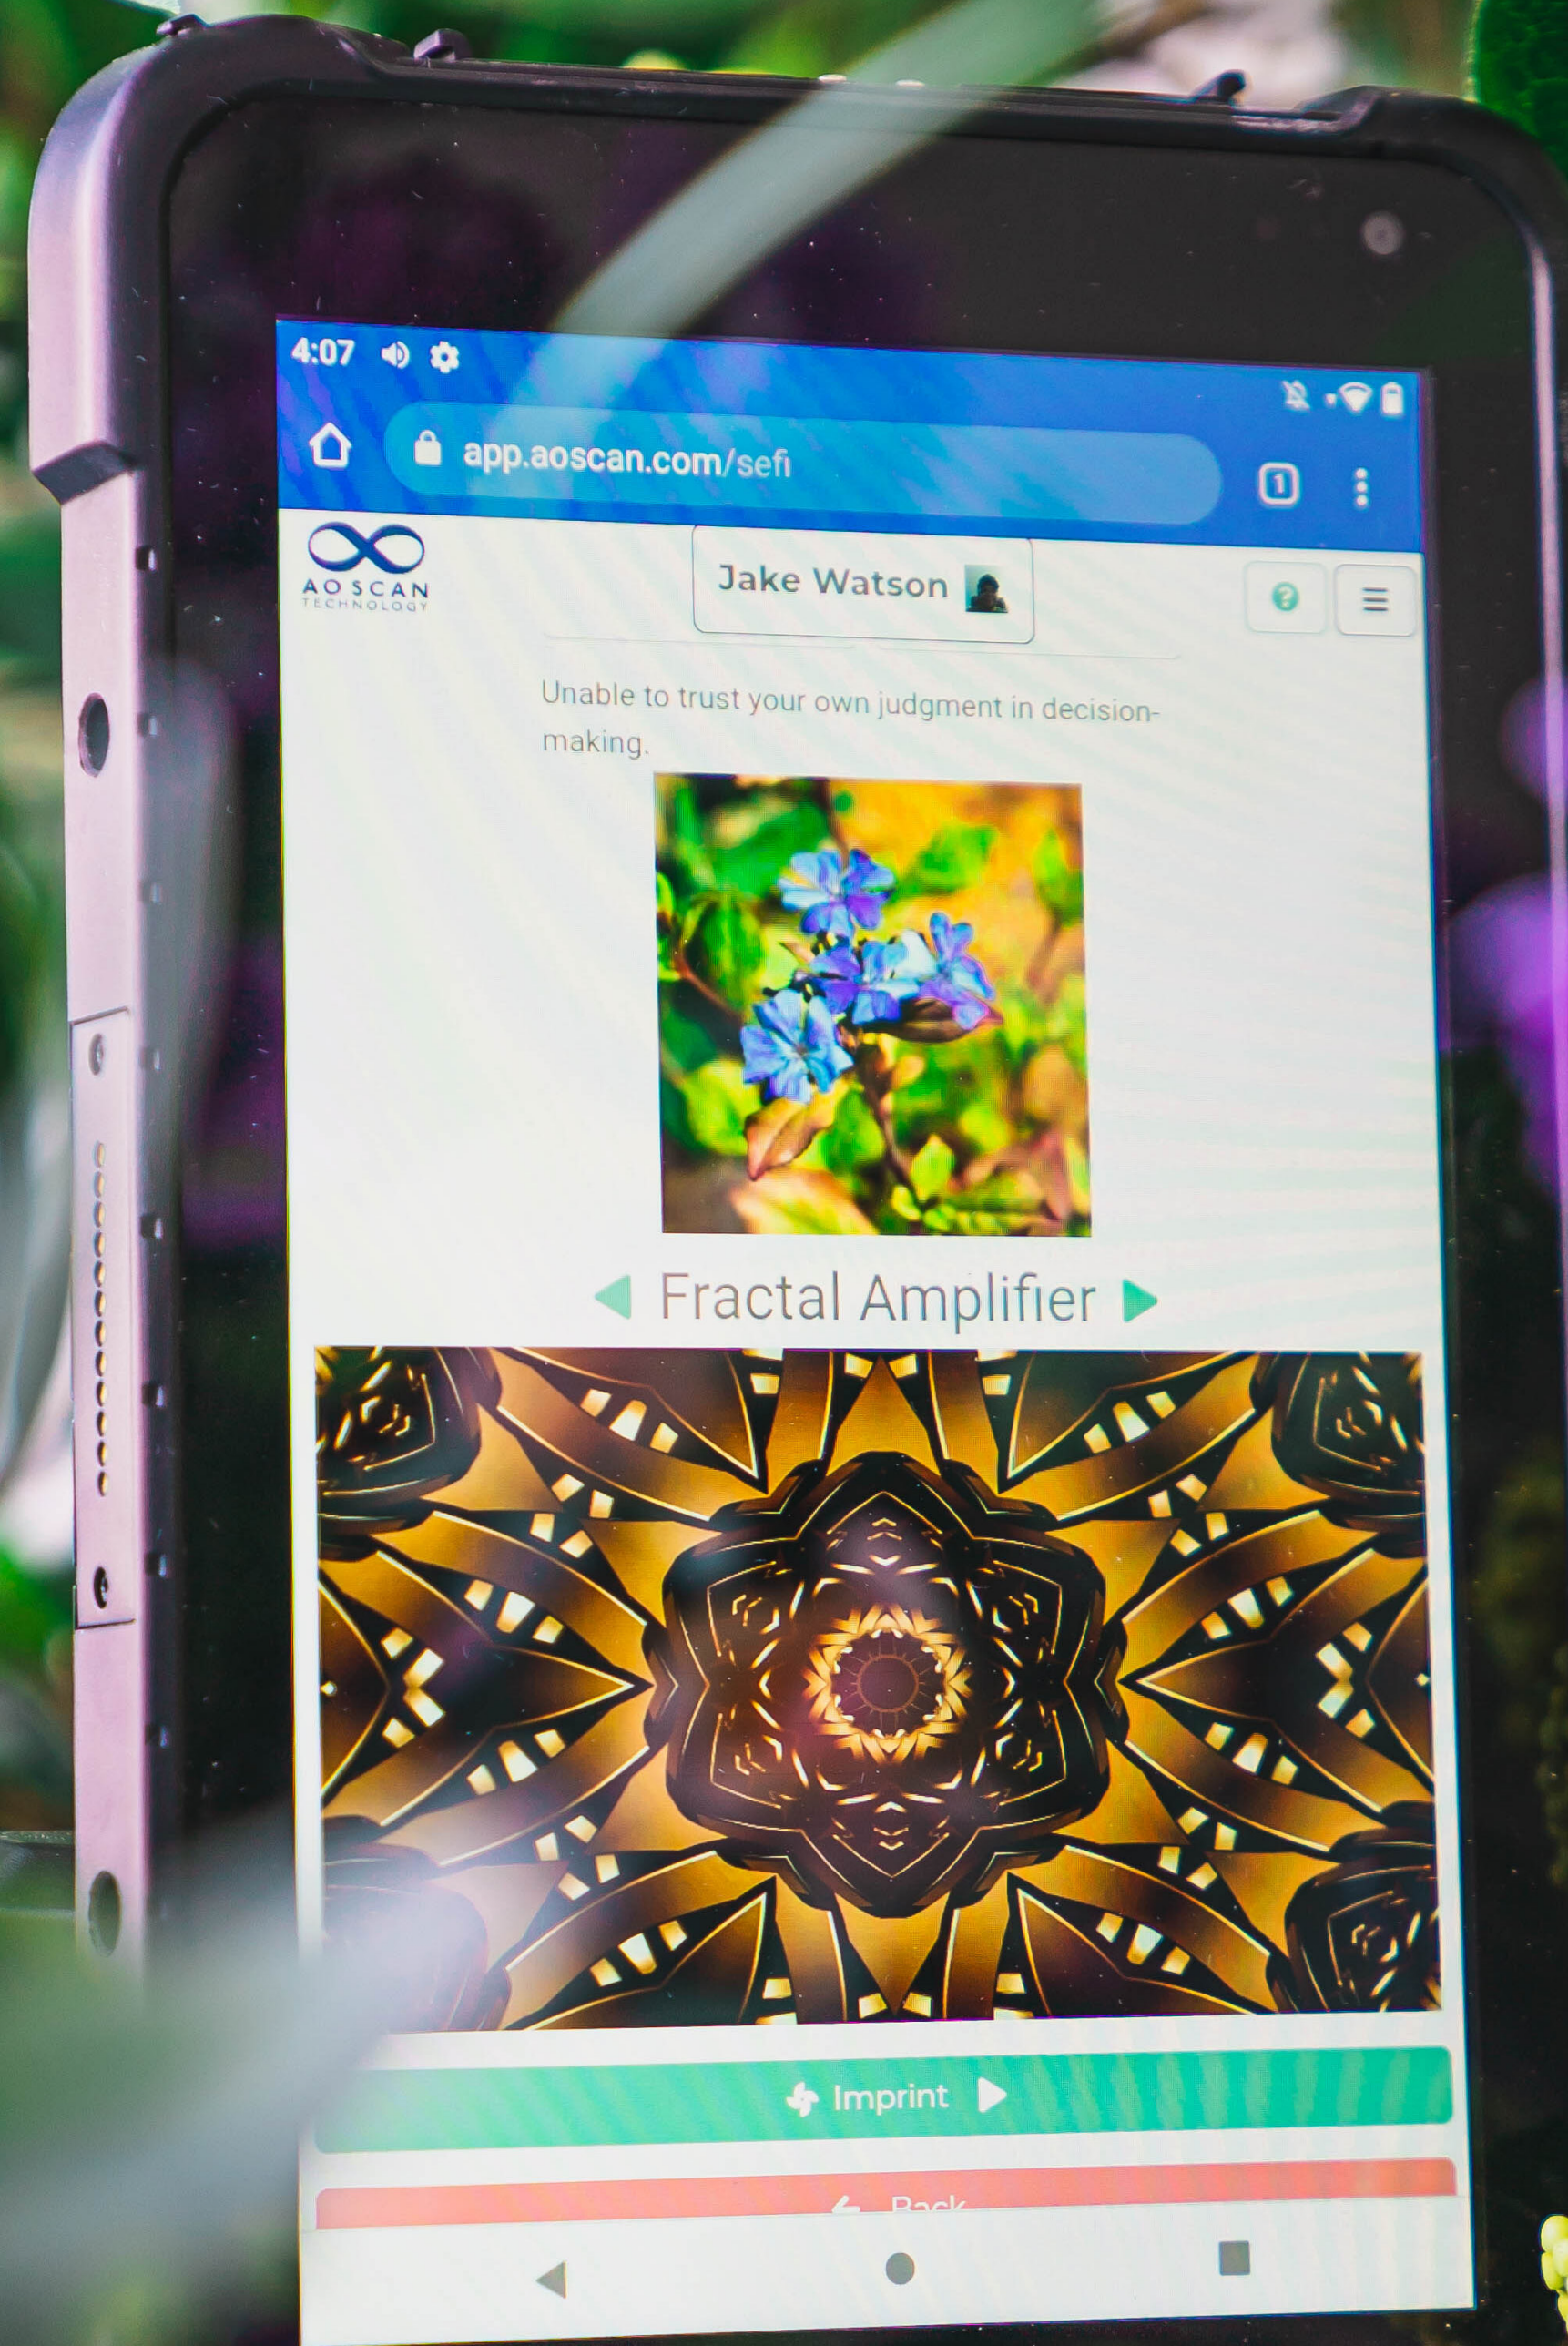

Comprehensive

- Performs a detailed scan of the frequencies of over 130 organs, cells, bones, and chromosomes
- Includes veins, skeletal, nerves, connective tissues, body parts, and arteries reports
- Gives graphical reports displaying variances ranging from 1 to 9

SEFI

- Designed to capture, amplify, and imprint subtle energy frequencies, and can either broadcast or imprint those frequencies into any element or item
- Includes Custom Playlists, Quantum Reach, Quantum Frequency, Quantum Affirmations, Quantum Flowers, Quantum Chakras, Quantum Homeopathics, and INNERgy Homeo-Energetix categories
