Truvy®

Pre+ Probiotic

What Are Truvy's Pre+ Probiotic Chews?

Our small batch Pre+ Probiotic is formulated with prebiotics and probiotics while containing 5 billion CFU per chew (10 billion CFU per serving) to maintain a healthy balance of bacteria in your gut.*

Prebiotics function as a food source for those microorganisms in your gut. These helpful little bugs (doctors may refer to them as gut microbiota) never let good food go to waste. They're constantly working hard to help your body digest the food you eat in order to support your immune system. What supports and feeds them? Prebiotics!

Probiotics are a mixture of live bacteria and yeast that naturally occur in your body (like the helpful little bugs we referred to before). This is good bacteria that fights off and eliminates bad bacteria, helping to maintain a healthy balance. You will always have both good and bad bacteria in your body but adding probiotics is a good way to maintain a healthy balance.

Keep your gut healthy and happy with our great tasting Pre+ Probiotic Chews!* Our guts are home to billions of bacteria. Some are good and some...not so much! Having the right balance of bacteria is essential for overall digestive health.*

Why Choose Truvy's Pre+ Probiotic Chews?

More and more studies have shown that a proper balance of bacteria in your digestive system is linked to overall health.* Our Pre+ Probiotic Chews can be your new best friend when it comes to helping you maintain harmony in your guts ecosystem.* Our chews provide the good bacteria (probiotics) with a food source (prebiotics) so they can live longer and work harder to help maintain a healthy balance in your gut. Packed with 5 billion CFU per tablet, our unique chewable Pre+ Probiotics are great for both adults and kids.

Maintaining a healthy balance of gut bacteria has been linked to a wide range of health benefits.* So what are the benefits of our Pre+ Probiotic Chews?
